

NEW BATTLE LINE IN FLANDERS

The victorious drive of the British east of Ypres, practically all the Passchendaele-Gheluvelt ridge, with many villages, is in their hands. The British are consolidating the ground gained, the Germans being unable to deliver any counter attacks. On the extreme left of the battle front the British entered the village of Poelcappelle.

TAX SEND MANY STOCKS DOWN

Market Impaired Greater Part of Week, Recovering at End.

New York, Oct. 8.—Not until the latter part of last week, after prices had experienced further serious impairment, did the stock market make even a moderate recovery from its irregular decline of the past fortnight. Improvement probably resulted from an over extended or tenuous short interest.

Complicated features incorporated in the government program of war taxes and revenues were held mainly accountable for the further depreciation of industrial, but no plausible reason other than poor earnings was offered in explanation of the steady liquidation of investment rails.

Reports of some \$6 roads for August showed that a gross gain of \$15,000,000 was entirely swallowed up by greater cost of operation. Bethlehem steel broke sharply on the announce-

ment of the failure of the banking situation to market more than 2-3 of the new preferred shares.

Bonds in general were irregular and heavy, many of the foreign issues yielding one or two points. The first liberty issue also reacted after selling well above par.

PRAISE WILSON'S WORK.

New York, Oct. 8.—Divided allegiance is denounced as treason in a pledge of loyalty to the United States, sent to President Wilson by the American Loyalty league last night. The meeting of the league was called to launch a publicity campaign throughout the eastern part of the country.

The loyalty pledge extends commendation work in behalf of peace and justice and the salvation of civilization. It says that liberty is menaced by the arch tyrant of the ages.

New York Players Reach Home Cheerily, Determined to Win Today

CICOTTE AND SALLEE

Pitcher Possibilities Question—McCarthy's Injury May Keep Him Out

New York, Oct. 8.—Notwithstanding the reverse suffered by the New York Giants, champions of the National league, in their two encounters with the White Sox, pennant winners of the American organization, followers of the national game in greater New York are eagerly awaiting the third contest which will be played on the Polo grounds tomorrow afternoon.

The two teams arrived in New York tonight. The Giants were greeted by hundreds of friends as they dropped off their special train in Harlem. Those who expected to see a dejected lot of ball tossers mislaid their guess. On the contrary the men greeted friends as cheerily as though it were the White Sox that had suffered the bitterness of defeat. Each player felt hopeful that tomorrow's game will tell a different story.

Victory was written all over the faces of the Chicago players. A large crowd and a band were on hand to see Rowland's men and they were given a cheer as they left their train.

Sox After Four Straight.

To the victorious American leaguers it is not a question of winning the series but whether they can do it in four straight.

Weather conditions for tomorrow's game promise to be all that is desired. A light rain fell early tonight but the weather men soon eased the fears of the men when he announced that the day would be clear and cool.

A crowd that will pack the capacity of the stands is predicted for the fray. The entire upper grand stand of 9,000 reserve seats had been sold in advance and the distribution of tickets was completed today. A force of clerks under the direct supervision of Harry Hempstead, president of the New York club, worked all through Sunday and late today in sending out the paste-

KERENSKY ONCE A "SUSPECT"

Czar's Secret Police Had Watched the Present Ruler of Russia for Months.

Petrograd.—When the revolution broke out in Petrograd the police stations were fired. The crowds joined in the firing.

No one seemed to realize that the records of the "Black Hundred" would be of more use in existence than in ashes. Any attempts of souvenir-seeking onlookers to seize any of the documents from the bonfires met with resistance.

A bank clerk was in the crowd around one of the fires. Among the books and papers dumped into the blaze he saw a dossier marked "Kerensky." He seized this and made a speech that persuaded the crowd that the Kerensky record ought to be saved.

Recently the bank clerk presented the dossier to Kerensky. It consisted of several hundred pages and showed that the secret police had been following him night and day for six months.

Richly Endowed.

Although Alfred had arrived at the age of twenty-one years, he showed no inclination to pursue his studies at college or in any way adapt himself to his father's business.

"I don't know what I will ever make of that son of mine," bitterly complained his father, a bustling business man.

"Maybe he hasn't found himself yet," consoled the confidential friend. "Isn't he gifted in any way?"

"Gifted?" queried the father. "Well, I should say he is! He ain't got a darned thing that wasn't given to him."

boards. Hundreds of telegrams and letters remain unanswered. The club offices were crowded most of the day with fans trying to buy tickets but there were none to be had.

Speculators Get Few Tickets.

To night some of the reserve seats began to appear at ticket agencies and among speculators but the number was not as large as was expected. The New York club took every precaution, based on past experience, to keep the tickets out of the hands of speculators. Nevertheless some choice seats in the upper stand were offered at \$35 for a set of three and \$70 for two seats to each person of the three games. Some seats near third base were offered for sale at \$20 each.

While the inquiry for tickets was brisk most of those seeking them were slow to buy at tonight's high prices holding for a drop tomorrow.

More than 25,000 tickets for the lower grand stand and the bleachers will be placed on sale tomorrow morning and when the seating capacity of the grounds is reached all gates will be closed. Those purchasing tickets must go directly into the ground. The club management hopes by this arrangement, the number of tickets falling into the hands of speculators will be kept down.

The bleacher line began to form tonight and is expected to lengthen rapidly in the early hours of tomorrow morning.

The New York club management expects about 38,000 will pay to see the games. Thousands of persons from other cities have arrived to witness one or more of the games.

Who Will Pitch a Question.

What little betting was reported tonight was two to one that the White Sox would win the series. It was even money when the Giants left for the west. Some New York betters were looking for longer odds.

New York fans are hopeful that the Giants' pitching staff will pull itself together and that the team as a whole will start hitting. They figure that Zimmerman and Kauff who failed to connect safely in the two games at Chicago are about due to break lose with their bats. The Giants confidently count on winning the opener on the home grounds and feel that the chances are favorable for winning the other game in New York also.

The followers of the western team, however, having looked over McGraw's best pitchers with the exception of Benton and found none of them difficult to reach, think that no matter who goes in against Chicago the results will be sustained.

Pitching possibilities are always a matter of speculation. If Manager Rowland starts Cicotte, McGraw may send Sallee in to oppose him. Another possibility is Schupp against Russell. It is probable that Rariden will do the catching for New York as McCarthy's shoulder and arm is still sore from the fall at the home plate in Chicago on Sunday, when he tried to touch out Leibold.

HALT CRISIS IN RUMANIA.

Petrograd, Russia, Oct. 8.—The crisis in Rumania which threatened to force evacuation on a large scale, has been solved and a food supply sufficient for 16 months guaranteed, according to Colonel J. W. Boyle of the Canadian militia, widely known in America as a mining engineer, who for the past four months has been reorganizing the transport system of the Russo-Rumanian front.

SHIPYARD STRIKE OVER.

Seattle, Wash., Oct. 8.—A strike in Seattle's wooden shipyards called September 14, in sympathy with the efforts of lumber workers to obtain an eight hour day, was called off in response to a telegram from Secretary of Labor Wilson urging the men to take this course.

FINANCIAL AND COMMERCIAL

Financial and Commercial.

New York, Oct. 8.—Stocks pursued a narrow and uncertain course today until the final hour, when a general selling movement followed publication of the government's crop report disclosing a falling off in the indicated corn crop and further deterioration in other important cereals.

Specialties and utilities featured the enlarged offering of the closing hour, tobacco leading the extreme declines.

Industrials held their ground most of the time, but at the end U. S. steel reacted from 103½ and closed at 105½, a net loss of 1½ points. Other equipments moved similarly.

Rails were firm. Depression of liberty bonds which sold from 99.66 to 99.54 was a sentimental adverse influence. Other bonds were lower or irregular. U. S. coupon 3's declined ¾% on call and registered 3's advanced ¼% on sales.

Here's a Real Hair Grower That Shows Results In Few Days

If your hair is thinning out, premature gray, brittle, falling out, and your scalp itches like mad, it's a sign of the dangerous dandruff germ and quick action must be taken to save what hair you have and start a new growth. Don't wait until the hair root is dead, for then nothing can help you, but get from your druggist four ounces of Parisian Sage—It don't cost much and there's nothing you could use that's any better. Do Sancerbund, the famous Paris specialty, discovered that dandruff and falling hair are caused by a microbe—then came the discovery of the value of the genuine Parisian Sage (liquid form) to destroy this germ and prevent further loss of hair and the formation of dandruff. You will surely be delighted with the first application, for your hair will be bright-looking, all itching ceases and your scalp feels cool and comfortable. A few messages with Parisian Sage are all that are usually needed to destroy the germ that causes dandruff to form, and very soon you should be able to see the new hairs coming in. Parisian Sage is a favorite with discriminating women because it is delicately perfumed, does not stain or streak the hair and makes it lustrous, soft and smooth. It's the only Parisian Sage (cosmetic) for this brand is guaranteed.

Special Eyeglasses for Divers.

A new eyeglass has been patented for the use of submarine divers. It is well known that the human eye does not function properly under water, objects appearing badly blurred and distorted. This is due to the fact that the speed of light in water is different from the speed of light in air, and hence the light rays enter the eye with a different angle of reflection. The eye, being designed for focusing rays coming through the air, is unable to focus rays coming through the water. The condition is analogous to that of defective eyes which are unable to focus properly ordinary light rays in the air. It may be similarly corrected by the use of special lenses, with the help of which the diver can see as clearly under water as in the air.

TOBACCO FUND GROWING

Largest Week's Collection Since the Project Was Started

Star readers contributed \$43.05 to Our Boys in France Tobacco Fund during the week ending October 6th, the largest amount received since the project was inaugurated, which fact is encouraging and will cheer the boys who observe that some citizens are opposing the government making an allowance of tobacco rations. This action seems absurd but so long as the government does not provide tobacco for the men there will be plenty of need for funds. Certainly no smoker would wish to be left without some tobacco if called to do his duty on the battle front and those at home who can appreciate what it would mean in the way of torture to be without the comfort and consolation it affords will certainly help keep the tobacco moving to the front.

IF YOUR EARS RING WITH HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get one ounce of Earsal (double strength), and add to it one-fourth pint of hot water and four ounces of granulated sugar. Take one tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open. Breathing becomes easy and the mucus stop dripping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal deafness or head noises should give this prescription a trial.

Rengo Belt Reducing Corsets Most-Economical

It is the height of economy to wear Rengo Belt corsets—they last.

Most reducing corsets have their style lines only when they are new. Rengo Belt corsets retain their lines until they are worn out, and greatest comfort comes after the first wear. This is the reason why Rengo Belt corsets have gathered new admirers each year until they have become famous.

Economical Satisfying Most Comfortable

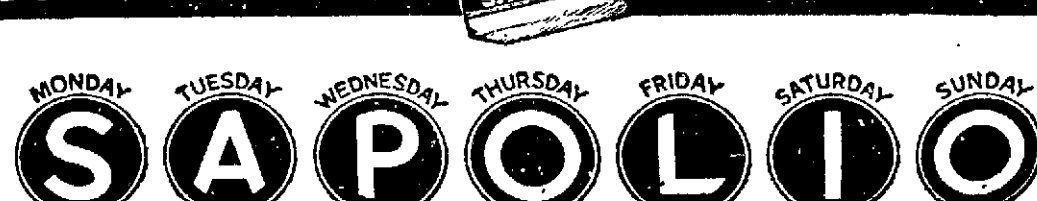

No woman asks more—some have found all this and more—mostly they are women who wear Rengo Belt corsets. Models for every figure—some with "steelastic" webbing for greater freedom—all with double watch spring boning.

THE THINGS OF DAY-BY-DAY.
Returns from the recent election in Sweden indicate that Yon Yonson bane about ready to see the light. The Washington disclosures regarding the Swedish embassy in Argentina reveals something which Yon was not till recently aware of.

The outcome of the three-cornered fight over the mayoralty in New York City is likely to be the election of the Tammany candidate. And after comes the usual thing when Tammany sits in the chair. It is unfortunate that reformers so often cannot agree among themselves.

It was a good thing to buy a Liberty Loan bond of the first issue. It is a good thing to buy one of the second issue. And if by any means you are able, it is a good thing to buy one of the second, even if you have one of the first. All cannot go to war, but there are many who can help the war along; and one of the best ways is to invest in Liberty Loan bonds.

Over in Ayer, where the soldiers taken by the first call from Oneonta are now drilling, committees have been appointed for the Liberty Loan issue, and officers and privates alike are planning to subscribe for the bonds. If men who already are offering their noblest efforts and their lives if need be in the cause of Liberty, are zealous in subscriptions to the loan, certainly there is no reason why we should not at least buy the bonds—we who stay at home.

Throughout Germany there has been circulated a statement that General Pershing had predicted a "stalemate" on the western front, on the ground that the German lines could not be broken. The report was naturally received with joy, and helped to strengthen any wavering line of German allegiance. The only thing about the statement of importance is that it is absolutely untrue, having never been made either by General Pershing or any other American army officer.

John D. Rockefeller Jr. and his wife are preaching lessons of thrift to their neighbors in the Pocantico hills. The former points with pride to the shoes he has had half-soled to save buying new ones, and to his wife knitting for the soldiers and wearing a two-year-old hat which she has made over with 35 cents' worth of ribbon. It is an easy and a common thing to ridicule such economies of the rich, but if they practice them there is an example which nobody should be ashamed to follow.

Letters found on German prisoners lately captured tell of the ravages in the Fatherland of "hunger typhus" among the civilian population. If the Kaiser had courage to acknowledge that he is beaten there would be neither hunger nor typhus in Germany. Germans are being starved and are dying merely to preserve the Hohenzollern throne. To surrender now would be to shake the foundations of the Prussian dynasty, and Wilhelm would sacrifice his people by millions to preserve that.

MAX USE FERRETS IN OTSEGO

Information of Interest to Sportsmen in This County

Many hunters residing in Otsego county having asked information from George Wohleben, esq., who more than perhaps any other attorney in Oneonta keeps himself acquainted with all the phases of the intricate game law, concerning the use of ferrets in Otsego county, that gentleman sent a letter of inquiry to the State Conservation commission, receiving in reply a letter, which states that ferrets may be used in twelve of the counties of the state, of which Otsego is one. The letter is in part as follows:

1. Under this order, ferrets may be used in taking rabbits within the boundaries of the above mentioned counties from October 1, 1917, to January 31, 1918, both inclusive, unless the order is sooner revoked by the commission.
2. Except as provided in Sub. 8 of Sec. 155 of the Conservation law, only holders of hunting and trapping licenses shall be permitted to take rabbits with ferrets.
3. Rabbits hunted with ferrets shall be taken by shooting only.
4. No person shall take with the use of ferrets, more than six rabbits in one day.

Claims Water Was Contaminated.

A claim for damages of an unusual nature has been presented to the Delaware and Hudson company by Hamilton A. Barnes, a well known resident of Cooperstown Junction. Mr. Barnes has a farm adjoining the company's right of way, through which the overflow of a spring passes as it runs under the tracks. Last summer while the new third track was being put in the ditch became clogged up and the water contaminated. As a result it is claimed cattle belonging to Mr. Barnes which drank the water died. It is also claimed that valuable pasturage was inundated with over a foot of water several weeks in succession until the company finally removed the menace. Mr. Barnes has retained Hon. Charles C. Flaesch of Unadilla.

COMMENTS OF THE PRESS

Japan's Policy in China.

Viscount Ishii's frank and candid statement of Japan's attitude toward China should remove from American minds any anxiety which misunderstanding or misrepresentation may have caused. With equal frankness it may be said that we in this country have not always understood Japan's purposes in respect to China, and we were particularly in the dark at the time certain specific demands were made upon China some two years ago. Our distinguished Japanese visitor not only illuminates the subject by his statement of Japan's purposes, but the assurances he gives are in their very nature calculated to allay any uneasiness that may have existed.—[New York Times.]

The Old Kentucky Bar.

Men of Kentucky simply must produce something that goes about in barrels. Uncle Sam put their distilleries out of the whiskey making business, and they in part proceeded to make alcohol for the mechanics in their still, and the other part went to boring wells that the petroleum of internal Kentucky might come up and jump into barrels, perhaps the same old whiskey barrels. Anyhow they drilled 186 oil wells in September, if not more since the last count, and are barreling 75,000 units of the oil a week. That means money at the rate of \$750,000 a week while oil sells for \$2.40 a barrel. And Tennessee follows its distillery neighbor into the oil business, with a petroleum pool in Scott county.—[Worcester Telegram.]

For a Nation of Investors.

The new war loan will produce further pressure for saving and economy. This will not be a bad result for a country in which people have not been thrifty. Many people will gain the habit of acquiring savings for the gains which the savings produce.—[Utica Observer.]

Columbia Cleans House.

The ejection by the board of trustees from the faculty of Columbia university of two professors whose attitude toward the war the board believed to be working "a grave injustice to the institution" fulfills the promise publicly proclaimed by President Butler on Columbia's last commencement day. It was that the alma mater of Alexander Hamilton would not tolerate in its midst any person "not of whole heart and mind and strength committed to fight with us to make the world safe for democracy." Of the professors dismissed one was active in the affairs of the so-called "Peace Council"—an organization of pacifists—and the other busied himself last summer begging congress to prohibit the ordering of any troops overseas who did not volunteer for such service. Columbia is setting an example in the premises which other educational institutions will do well to follow.—[Boston Transcript.]

Germans Lack Ammunition.

The news sifts through from Copenhagen that the Germans are suffering from a lack of ammunition. Accordingly a few days since they called the prominent labor leaders into a conference, urging them to use their influence and best endeavors to speed up the workmen, representing that as an absolute necessity. The alleged reason for the falling off in the output is that the men are not well nourished and have already been working overtime and beyond the best of their permanent and continuous ability. This may prove an important factor in determining the result.—[Utica Press.]

What Every German Ought to Know.

What Dr. Michaelis and his kind either do not know or have not the intelligence to understand is that this great nation has gone quietly but determinedly about the business of marshaling for war all of its wonderful resources. That which already has been accomplished speaks for itself, and its meaning could not be misunderstood by any sane those who do not understand great democracies. A wise chancellor would see only grave portent to Germany in the fact that instead of going to war with hurrah and hysteria the United States is going about its war business with the same dogged determination that has won for this country overwhelming success in the business of peace. Germany, however, has had no wise chancellor since Bismark was kicked out of that high office.—[New York Herald.]

War a Matter of Law.

War when formally declared by the congress of the United States is as much a law as any statute running against murder or counterfeiting or forgery. It is more impressive in some respects, because it deals with an imminent situation and calls upon every loyal citizen at once to support it with personal service and money. How long are we to tolerate the nonsense that, in the presence of such a law, men are exercising only their rights as freemen when they advise its violation and urge their fellow-countrymen to become common lawbreakers as well as traitors?—[New York World.]

Looking for Auto Headlight Violators.

Mounted officers of the state constabulary are reported as at work in Central New York looking for violators of the auto headlight law. Many motorists persist in using the plain lens, which do not conform to the law, and it is said that these officers have instructions to arrest violators. They are also empowered and instructed to apprehend speeders in the public highways. They should prove a conserving force about the state.

Fined for Fast Driving.

Charles Waters, an employee of the Binghamton Motor Car company, was haled before City Judge Holmes yesterday by Officer Brown, charged with violating the city ordinance relative to speeding upon city streets. He was making too fast progress down Chestnut street. He paid a fine of \$5 and went on his way taking a more reasonable pace as he left the city.

LOCAL MENTION.

—Buy a Liberty bond and help win the war.

—Friday and Saturday of this week are the first registration days for the November election.

—George Baird has purchased of J. A. Dewar a new 1918 Cadillac roadster, which has been delivered.

—The city clerk's records show that there were 21 births in the city during September and 17 deaths during the month.

—Mrs. E. E. Aplenary remains quite ill at her home on Watkins avenue, her condition not responding to treatment.

—Have you bought a Liberty Bond? If you cannot get into the army you can make your dollars fight. Are you with Uncle Sam?

—Following the advent of the government tax, the price of smokes has advanced. Five cent packages of tobacco and cigarettes have advanced locally to six cents with other prices in proportion.

—Sunday next is to be observed as Rally day at the First Methodist Episcopal church and the Sunday school as well. It is hoped that the weather will permit motor cars being used to get the old and infirm to the church for the service.

—T. E. Blanchard of Oneonta Plains leaves at this office a bunch of fall strawberry plants, upon which are numerous well formed berries, some of them ripe and others in various stages of ripening. The berries are of good size and evidence that they are prolific bearers under favorable conditions.

—In an encounter on the state road near Maryland on Saturday evening, between a Chandler roadster and a Ford touring car, one front wheel of the Chandler was broken off. The Ford car was also damaged. No one was injured. The names of the owners could not be learned. The Chandler was towed to Oneonta for repairs at the Oneonta garage and the Ford to Schenectady.

MAYOR ANDREW E. CEPERLEY

Calls Attention of Citizens of Oneonta to Necessity of Fire Prevention

Today, October 9, is designated as National Fire Prevention day, and Gov. Whitman, in a proclamation, asks the people of the State to cooperate in the movement. May I urge the citizens of Oneonta to do their part in this effort to safeguard so far as possible, all property from danger of fire and consequent economic waste. A careful examination of all premises should be made, unsafe heating conditions remedied, accumulations of waste cleaned up, care exercised in the handling of dangerous combustibles, and every effort made to eliminate, so far as can be, the fire hazard in our community.

A. E. Ceperley, Mayor.

MUST INTEREST SMALL INVESTORS

CAMPAIGN FOR SECOND LIBERTY LOAN TO BE PUSHED.

Chairman Butts Plans Conference to Arrange for Systematic Effort to Boom Sale Among People of Limited Means—Their Purchases Will Save the Day.

Chairman L. P. Butts, in charge of the second Liberty loan in this section, is convinced that the proper method to reach the apportionment made to Oneonta and southern Otsego is the partial payment plan which in addition to financing the war will also benefit the very people who should learn to save money. The success will depend upon the ability to get the matter fairly before the small investor and the wealth of small investors will carry the day. This will serve a twofold purpose as it will be successful in getting the masses into habits of thrift and economy.

On Tuesday afternoon he is to have a conference with Waldo C. Johnson and Floyd S. Barlow of Cooperstown, together with Granville Rathbun, who has been added to the local committee as representing the grangers. The plan of campaign to interest the small investor in these high grade securities, which are the best that can be bought, will be carefully considered and it is hoped that the county will this time obtain the mark set for it. It is reported that in northern Otsego many small investors, who are taking from \$500 to \$2,000 of the new issue are being interested and the response is very encouraging.

At the meeting of the local committee last evening the further plans and arrangements for distributing the advertising matter were discussed. It is hoped that the publicity matter will be received promptly and it will at once be placed.

In discussing the matter last evening Mr. Butts said that the country must not rely upon the large investors who will take at the best only a small part of the loan. If the public can be aroused and made to appreciate the value of the loan as an investment and the importance of having the full amount subscribed as a necessary step in the war program, success will be certain. It is no time to discuss peace or other questions at this time. The nation has embarked upon the undertaking and the stronger we fight now and the more effective this campaign is made the sooner will peace be in sight.

The Delaware and Hudson company cannot afford any relief, to the local committee, it is ascertained, as all subscriptions that are taken from its employees on the partial payment plan must be through the New York office of the company and no arrangements can be made for these purchases to be credited to the city or locality where made.

The time is short and the need for action is urgent. The local banks report some sales but the aggregate is not large at present. Those who have decided the amount of their purchases should make them at once that the campaign may receive the impetus which they will give.

LIBERTY LOAN SPEAKERS.

Well-known Citizens Attentively Listened to Last Evening

The plan of four-minute addresses, as outlined by the Liberty Loan committee, was carried out last evening in all the theaters of the city. At the Oneonta theatre Dr. James C. Russell gave a forcible address before the earlier audience at 7:45 p. m., and at 9:15, he was followed by Col. Walter Scott, who presented the matter from the business man's viewpoint. At the Strand the two speakers were Dr. George J. Dann and Hon. George L. Boakes, each of whom, clearly set the duty of the hour before their hearers. The campaign was well set in motion by the speakers of the evening.

This evening four-minute addresses will be given in the same places by other citizens of Oneonta, and still others will follow each evening during the week. The speakers tonight are:

Strand theatre—Rev. Charles McCaffrey, 8 p. m.; Hon. A. L. Kellogg, 9:15 p. m.

Oneonta theatre—J. F. Thompson, 7:45 p. m.; Hon. Charles Smith, 9:15 p. m.

Will Go with Home Boys.

Harold Toombs of Schenectady, employed in Ohio, lately took the physical examination for enrollment in the federal army at Miles, in that state, by permission of the board in Oneonta. He passed the examination satisfactorily and immediately made application to be allowed to go to the front with the boys from home instead of from Ohio. Permission was granted and he will at once come east and will join the quota from this district at Camp Devens.

MUCH INTEREST MANIFESTED

In Closing Days of the Thrift Week Campaign.

The closing days of the Thrift campaign have been marked by intense interest and increasing zeal on the part of those who have the matter in charge. President of the Y. M. C. A., Charles J. Beams and Secretary A. B. Davis have expressed pleasure at the manner the people have received the messages from the different speakers.

Today is "School and Health Day." Speakers for the various schools, including the Normal and Normal grades, have been selected, together with those for the factories and shops, as follows:

At 8:30 Dr. J. C. Russell will be at the Normal.

At 8:45 S. H. Potter will speak to the grades of the Normal.

At 9:45 Mayor A. E. Ceperley will speak at the Center Street school.

At 9 o'clock the following will speak at the various schools mentioned: Col. Walter Scott at the East End school; Dr. E. J. Farley at the River street school; Charles E. Westervelt at the Chestnut street school; A. B. Davis at the Academy street school.

At noon Mrs. Margaret Thornborn will be at the Riverside Manufacturing company; Dr. F. H. Marx at the Gloversville Knitting company; Mrs. Eva Caddy at Buckley Brothers; Dr. N. W. Getman at D. & H. shops and Dr. L. S. Lang at D. & H. round-house.

FIRE ENDANGERS SCHOOLHOUSE

Spectacular Blaze on Chestnut Street, When Barn Burns, Causes Fear Shops Are Ablaze.

A spectacular fire last night, that caused many people to believe that the Delaware and Hudson shops were ablaze, totally destroyed the barn, and all its contents, of Alvin J. Bingham, situated at the rear of the home of Frank W. Bouck, 392 Chestnut street, and for a time threatened to ignite the Chestnut street schoolhouse, 50 feet away, and the Bouck residence.

How the fire started is a mystery. When it was discovered by Mrs. Bouck, the old frame structure was a mass of flames. Even though the firemen were delayed in getting to it, because they went to the Center street school, misunderstanding the telephone alarm, they could have done little, spectators believe. When they did arrive, they first turned their attention to saving surrounding property.

Mr. Bouck, who rents the barn from Mr. Bingham, lost three wagons, a cutter, some harness, and household goods stored within. He estimates his loss as about \$400, partially insured. Mr. Bingham roughly stated his loss last night at \$450 on the building, with about \$200 insurance.

DR. ANNA H. SHAW COMING.

Noted Woman Orator and Suffrage Champion Here Oct. 19th.

Dr. Anna Howar, Shaw, quite probably the most noted of the women champions of equal suffrage, is to spend next week in Delaware county, campaigning for the cause under the direction of Mrs. Henry W. Cannon of Delhi, the Delaware county leader. Mrs. Cannon has kindly donated her services for a suffrage rally in Oneonta on Friday evening, October 19, and she will speak at the Oneonta theatre that evening. With Dr. Shaw will come a capable male quartet from Delaware county, who will sing. It is expected that some local speaker will appear with Dr. Shaw. It is hoped that there will be a large audience to greet Dr. Shaw, for she is one of the most remarkable women of the day. The program will be announced later. However, you are urged to reserve the date for an opportunity to hear Dr. Shaw.

Watch the Show Windows.

Nationally advertised articles are to be brought to the front this week by thousands of merchants throughout the United States and Canada in the form of window displays. Once a year the enterprising merchants co-operate with the great firms, corporations or individuals of standard products by making a window display of the goods which have by honest advertising gained an international reputation.

Numerous merchants of Oneonta are co-operating and will during the present week make displays in their show windows of some of the nationally advertised articles and the attention of the public is directed to the display windows of the various merchants during the balance of the week.

Although the merchants were a trifle late in receiving their window cards it is hoped that every merchant who can will endeavor to place a display today.

Oneonta Lends.

Nineteen out of every 20 people in the United States fail to provide either for their old age or children. They do not seem to care or know about thrift. For 29 years, 10 men in Oneonta have been giving largely of their time and ability to make people see the necessity of it, and as a result 1,600 men, women and children are now making small monthly amounts accumulate to two million dollars in the safe six per cent compound interest system of the Oneonta Building and Loan association, which is protected by state laws, same as savings banks.

Card of Thanks.

For many beautiful floral tributes, which betokened the depth of their sympathy, as well as for the assistance so largely offered and so generously given in the hour of bereavement, the wife of the late William H. Drew desires to extend her heartfelt thanks.

Mrs. William H. Drew.

Card of Thanks

We, the undersigned, wish to express our sincere thanks on behalf of our son, John Pearson, who has been home on a short furlough, to all his friends and acquaintances for the pleasant time given him and especially to Mr. C. C. Miller and employees, for their kindness and token of esteem which they presented to him.

Mr. and Mrs. J. Pearson and Family.

Wake up! See what your friend did. He bought a lot on the Miller plot. Why don't you see F. D. Miller, 198 Main street, or J. E. Tilly, 12 Reynolds avenue, about these future homes, and get one through their exceedingly easy payment plan. advt 17

WOMAN'S DEFENSE COUNCIL.

Meeting Called for Friday Afternoon at Municipal Hall for Organization.

Following out the plan for the co-ordination of the women of the country into one organization, as a part of the National Council of Defense, a meeting has been called by Mrs. Abraham L. Kellogg as temporary chairman for Friday afternoon, October 12, at 2:30 o'clock, at Municipal hall in this city, for the purpose of organizing a county unit of this body. It is hoped to effect an organization to embrace all the women of the county, that they be reached and their efforts enlisted collectively in the event of any emergency arising.

There is being arranged an attractive and interesting patriotic program for the meeting, and in addition to the representatives of all the various women's organizations of the county all women interested in developing a greater spirit of patriotism and more intense interest in the successful outcome of the war are invited and urged to attend. There will be a patriotic address by Rev. Dr. J. C. Russell and others and several attractive musical numbers also being secured. It is expected to have ready for exhibition during the afternoon an interesting collection of picture slides, illustrative of the part women of our allies abroad are taking in the titanic struggle. It will show what work the women are doing and what they can do if necessity arises.

In view of the urgent necessity for an arousal of public interest in the outcome of the war and the salvation of the world from like struggles in the future, it is hoped that there will be a large attendance of women at this meeting. Further reference to the program will be made later in the week.

Boyd-Ploutz Wedding.

At 8 o'clock last Saturday evening, in the presence of a few relatives and intimate friends, Miss Harriett Ploutz, daughter of Mr. and Mrs. Carl Ploutz, was married to Andrew J. Boyd. The ceremony was performed by Rev. James C. Russell, pastor of the First Presbyterian church, at the home of Mr. and Mrs. Robert VanDyke, 82 Spruce street in this city. After a short bridal trip, Mr. and Mrs. Boyd will be at home at Herkimer. Mr. Boyd is a valued employee of the Remington Firearms company at Ilion.

Funeral of William H. Drew.

The funeral of the late William H. Drew of this city, was held at 2 p. m., yesterday afternoon at his late home on Maple street in this city. The service was conducted by Rev. Mr. Leonard, pastor of the Universalist church at Morris, and there was a large attendance of relatives and friends, whose presence, and the profusion of floral tributes, testified to their sympathy and regret. The bearers were M. C. Hemstreet, Owen C. Becker, Harold Crozier, Fred Carr, F. B. Sherman and C. R. Morris. Interment was in the Moore family plot in the Riverside cemetery.

Among those present from out of the city were, Rev. and Mrs. Leonard of Morris, Mr. and Mrs. Edward Allen, Nelson Drew, Abram Moore and Mrs. Augustus Bailey of Laurens and James Mead of West Oneonta.

Enters Anti-Saloon League Work.

Rev. J. M. Coleman, formerly pastor of the Methodist Episcopal church at Mt. Vision, and now pastor at Morris and Gilbertsville, has asked to be relieved of his pastoral duties and will retire therefrom October 15 and engage in the Anti-Saloon league work as assistant superintendent, with headquarters at Albany. His successor as pastor at Morris and Gilbertsville has not yet been named. Mr. Coleman has had considerable experience in his new work, having been engaged in similar work in Pennsylvania before coming to his New York state pastorate.

Knowledge Is Power

The Board of Education of the city of Oneonta is offering to the men and the women, the boys, and the girls, a night school course unrivalled in any city.

Patriotism requires that everybody must produce to his very limit.

A better mental equipment means greater earning power---more salary for services rendered.

Each one of the nine courses should be filled next Wednesday night, Oct. 10, when the High School formally opens. The sessions begin at 7:30 and close at 9:20. Two hours thus spent twice a week will mean brighter futures for those who profit by such study.

Every citizen of Oneonta should urge liberal patronage in behalf of this worthy movement. **Register tonight.**

Kills Catarrh Germs

Hyemel the Most Wonderful Treatment for Catarrh Ever Discovered.

Do not try to cure Catarrh by taking drugs into the system. It cannot be cured in that manner. The only way in which this too common disease can be cured is through a direct application that will kill the catarrh germs and prevent their growth.

Hyemel is the only known method of treatment that accomplishes this. It is the simplest, most pleasant, and the only natural remedy for catarrh that has ever been discovered.

The complete Hyemel outfit costs but little, consisting of an inhaler, dropper and sufficient Hyemel to last several weeks. This should effect a cure in ordinary cases, but for chronic and intractable cases of catarrh, longer use may be necessary, and then extra bottles of Hyemel can be obtained for a few cents. It is not alone the best it might be called the only method of treating catarrh, but it is also the most economical.

Remember that if Hyemel does not help you, H. B. Gilderleeve will refund your money.

WANTED TO SEE BIG CITY.

Two Oneonta Girls Visit Binghamton But Are Brought Home.

Alfred Egglestone and Rudilla Whitlock are each 16 years old and live in Oneonta. But Alfred and Rudilla longed for the sights of a "big city," so they put their heads together and picked out Binghamton.

Stealing away from their home Friday afternoon they took a train for this city. Alfred's father discovered his daughter's absence and came to the conclusion that it would not be safe for his daughter to be alone in the "big city," so he called on Chief Blizard of Oneonta for assistance. The chief telephoned the local police office and gave a minute description of the two girls.

The girls managed to elude the authorities until about 10:30 o'clock Friday night, when Officers Gorman and Collins discovered them coming out of a theatre on Chenango street. They were having such a good time seeing the sights that it was only by much persuasion that they were finally convinced that they ought to go back home. They were taken to police headquarters and from police headquarters they were taken back home where they will have to be content with dreams of what a "big city" is like.—[Binghamton Press.

TODAY FIRE PREVENTION DAY.

All Individuals Urged to Clean Up All Dangerous Waste.

Each individual should acquire the spirit of fire prevention, which is to be observed on October 9, the day set aside by the Fire Prevention Committee of America, for a general reduction of fire hazards through co-operation. Suggestions for fire prevention have been made a number of times, and fire hazards have been decreased, but not enough, and an organized effort in that direction seems to be the best method of obtaining results.

We all try to be careful and considerate, as far as that goes, and think that we are all safe from any fire at all, but it is not so, we are not careful enough. Unnecessary risks are the cause of many fires—rubbish in dark corners, defective lighting and heating apparatus, carelessness in the handling of gasoline, placing of matches in exposed places, hanging of lace curtains close to gas jets, or any one of a score of other hazards may be the cause of disastrous fires.

Now, let everybody co-operate in this matter and start right in to see who can have the cleanest cellar and back-yard. It doesn't take much to keep it so when it is free from papers and rubbish, and who knows, it may avert a conflagration.

In addition to the prevention of fire, some attention should be paid to the fighting of fires. All fires are small fires at first, and usually easy to extinguish with little effort, time of discovery, while delay adds greatly to the possibility of quenching the flames, and also increases the loss. So always know where your nearest fire alarm box is, or if you have a phone always have the fire department's phone number in sight, which is 42. The loss in Oneonta is very small this year, and with the co-operation of everybody on October 9, let us clean up the dark corners and back yards, and prevent a big loss.

Subscribe for \$1,500,000 of Bonds.

There was a note of jubilation in the voice of E. N. Potter when he announced at Liberty Loan headquarters in New York, a subscription of \$1,500,000, from the Endicott Johnson company of Binghamton, owners of the largest shoe factory in the world.

Mr. Potter, of Potter, Choate & Prentiss, is chairman of the committee which is canvassing the fourth of the eight districts into which the Second Federal Reserve district has been divided for the purpose of covering the territory outside New York city. Mr. Potter said:

"This big shoe company took \$1,000,000 of the first Liberty Loan and the committee for the fourth district decided to improve that figure by fifty per cent.

"The members of the committee are going to Binghamton to preach the gospel of the Liberty Loans and see how many more concerns there are in Binghamton with the patriotism of the Endicott Johnson Co."

Grinding Home Grown Wheat.

Numerous farmers hereabouts who have grown spring and winter wheat are wondering where it can be ground. W. A. Barlow of West Davenport, who is operating the Lockwood Mills, has been having good success with wheat, having secured about 40 pounds of refined flour to the bushel. The flour, while not as white as that ground by the new process, is quite as nutritious and makes excellent bread. With the demand for wheat planting in New York a local mill grinding the same becomes almost a necessity and Mr. Barlow will quite likely find his mill in demand.

Juice of Lemons!
How to Make Skin
White and Beautiful

At the cost of a small jar of ordinary cold cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove much blotches, sallowness, freckles and tan and is the ideal skin softener, smoothen and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is wonderful to smooth on rough, red hands.

MEN WHO FEED THE ARMY

CAPTAIN MILLARD'S COMPANY
SUPPLY STAFF OF LIFE TO
ENTIRE DIVISION

Correspondent of New York Herald Tells How 105 Expert Men Turn Out Thirty Thousand Pounds of Bread Daily—Personnel of First American Field Bakery—"A Company to Be Proud of" Says Captain Millard of Oneonta.

(Special to New York Herald).

Camp Wadsworth, Spartanburg, S. C., Saturday.—While the professional soldier prides himself on the knowledge of the military, and while there is not the slightest doubt that without the regular army men it would be a difficult task to build up a large fighting force in a short time, the present war situation has brought forth the fact that the latent qualities of the citizens of this country come in good stead when an emergency arises. Not only do the latent qualities come to the fore, but the professional attainments of the sons of Uncle Sam make for an efficient fighting force, as is proven at Camp Wadsworth, where the Twenty-seventh division, National Guard, formerly New York division, are concentrated preparatory to their transportation to the French war zone.

In the northwest corner of Camp Wadsworth is located the First New York Field Bakery, commanded by Captain Jesse A. Millard, who in civil life was the proprietor of the Oneonta hotel at Oneonta, N. Y. To be a successful hotel proprietor one must know how to marshal his forces, look after the culinary department of the hotel, be suave to his guests and see that the appointments of his house are comfortable and up to date. One of the most important duties of a hotel proprietor is to see that there is no unnecessary waste.

Captain Millard was a successful hotel proprietor, hence he has all the required attributes, which are proving golden assets to the command of Major General John F. O'Regan. His knowledge of marshaling his forces has made him with his military experience, a commander of soldiers who can command. The suave manner of the Captain, which is part of his personality brought to the fore through his training in the hotel business, acts as an accelerator on his men when time is short and much work must be accomplished. His ability to see that everything is in its appointed place and that nothing is overlooked, which would tend toward comfort and cleanliness imparts to his men this ever important need, and his culinary department training, with the saving qualities born of his profession, results in the division's field bakery turning out the maximum amount of bread at a minimum cost.

The field bakery consists of five section shacks, with three ovens set up in front of each, making a total of fifteen field bake ovens in the unit. These ovens have a capacity of 30,000 pounds of bread a day, each oven having a capacity of 250 pounds at a run and ten runs can be turned out in a day. The ovens are of sheet iron, lined with asbestos, with a brick firebox underneath, and stand but four feet above ground. Back of each trio of ovens stand the mixing shacks in which the dough is mixed and kneaded. Everything is done by hand, and the arrangements are such that the baking can be done with convenience and dispatch. These mixing shacks are screened, and Captain Millard's men are so careful as to cleanliness and sanitation that their commander offers a dollar for every fly that a caller may catch inside the shacks.

Across the road from the ovens stands the mammoth bread house, in which two days' supply for the division can be stored. As the baking is done 24 hours in advance, this store house is always filled with both garrison and war loaves of light, snowy white bread. Garrison bread is being used by the New York soldiers just now, but war loaves, which are encased in a heavy crust to insure their freshness if stored for any length of time, will become a necessity when the artillerymen go to their training field, 20 miles from camp, in the "Dark Corner" of South Carolina. Also the baking of war loaves and the occasional serving of them will get the men used to this sort of bread before they are forced to eat it in the European war zone.

When all the units of the Twenty-seventh division are in camp the bakery will be run to capacity, turning out 30,000 pounds of bread a day. In making the bread 22,500 pounds of flour will be used, 250 pounds of yeast, 250 pounds of sugar, 250 pounds of salt and 13,500 gallons of water.

The bread is baked in two pound loaves, six to a sheet, as the soldier bakers call a pan full. It has a thick crust, but is wholesome, and when it is mentioned that the soldiers like it, it can be readily seen that it is of the A No. 1 brand, for edibles have to be topnotch to get the unanimous stamp of approval at Camp Wadsworth. With the great capacity of output, the soldiers can get their bread hot, if they so desire.

Having found that grease is better than water for washing the mixing troughs, yeast cans and bread pans, the soldier bakers have dispensed with the latter when cleaning up. No doubt many housewives will be horrified to learn this, but if they could inspect Captain Millard's bakery and see the cleanliness and neatness of it they, too, would turn to grease to wash their dough caked kitchen utensils.

The bakery tents and ovens face a road running along the north side of the camp. The sleeping tents and mess shacks are on the opposite side of this road. When the road is macadamized and the boardwalk laid in front of the tents the field bakery will be one of the prettiest of the division's units.

Next in command to Captain Millard is Lieutenant T. P. McCann, of Elmhurst, L. I., detailed from the Medical corps. There are 105 men in the bak-

ery company, one sergeant, first class; 23 sergeants, two cooks, 15 corporals, 45 privates, first class, and 15 privates. All the men are professional soldier-bakers and most of them were trained under Captain Millard.

The baking is under the supervision of a Manhattan boy, First Class Sergeant Carl Schuler, who is an expert in his line, and each oven is presided over by a sergeant. The privates are used in the mixing shacks to knead the dough or are detailed to storing the bread in the storehouse. Sergeant Charles E. Crossett is the first assistant chief baker, and take it from Chief Baker Schuler, no better bread maker exists than this soldier baker.

The command is made up of men from Manhattan, Brooklyn, Albany, Gloversville and Oneonta, and nowhere on the reservation can a more enthusiastic command be found. Sergeant Fred L. Beach, company clerk, whose duties allow some observation, says that bread is the men's pet, and for an oven crew to turn out burned or underdone bread would bring down the condemnation of the entire unit upon them. Each oven crew vies with the other in turning out the best of loaves, with the result that the "kind that mother used to make" is served at all the mess shack tables.

This is the first military field bakery ever organized in the United States army. It was organized four years ago by Captain Millard, and its home station was at Peekskill. Having had nine months' field experience on the Mexican border, the men are near veterans in their duties, and as they are all professional bakers and experts in their line, they are looking forward to the time when they can cook side by side with the French army cooks. When that time comes there is not a soldier in the Twenty-ninth division who does not look to see the Frenchmen borrowing recipes and taking instruction in bread making from Captain Millard's boys.

The field bakers take great pride in their work, and their efficiency was proven by the fact that 48 hours after reaching Camp Wadsworth they had laid out their camp, unloaded and set up their equipment, built the fire boxes and set in the ovens and were turning out bread. The first batch of bread totalled 3,600 pounds, but, as there were few units in camp when the field bakery arrived, that was all the bread required. Had the men been called upon to turn out the capacity of their ovens, 30,000 pounds, they would have been able to perform the feat just as easily.

"Every organization in camp has some one thing that it is proud of," said Captain Millard to a Herald reporter. "We take a special pride in our company mess. It is in charge of Sergeant William H. Diffin, and he is the best in this or any other army. We furnish the bread for the entire division, and we feel that we are entitled to something good to eat ourselves—and we get it."

Evening School Announcement.

The Oneonta Evening school will open Wednesday evening, October 10, in the High school building on Academy street. The courses offered this year are: Arithmetic, bookkeeping, shorthand, typewriting, penmanship, cooking, sewing, millinery and mechanical drawing. A department in English and citizenship has been provided to teach the simpler forms of oral and written expression to those of foreign birth who wish to know more about the use of the English language and about the history and government of our country. Twenty-eight pupils have already registered in the typewriting course and it will be impossible to accommodate a larger number. However, a few may be placed on the waiting list. A fee of one dollar is charged at the time of registration. This, less 10 cents for each absence, will be refunded at the close of the term. Results will be more satisfactory if pupils select a department and spend all their time there. All pupils are urged to register before the opening night. Registration Monday and Tuesday evenings. advt 37

TAKES OFF DANDRUFF
HAIR STOPS FALLING

Girls! Try this! Makes your hair thick, glossy, fluffy, beautiful.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and vary, and have an appearance of abundance and incomparable lustre, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—these all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.
